Re: TransMontaigne Product Services, Inc. 163-16131-00063

TO: Interested Parties / Applicant

FROM: Paul Dubenetzky
Chief, Permits Branch
Office of Air Quality

Notice of Decision - Approval

Please be advised that on behalf of the Commissioner of the Department of Environmental Management, I have issued a decision regarding the enclosed matter. Pursuant to 326 IAC 2, this approval was effective immediately upon submittal of the application.

If you wish to challenge this decision, IC 4-21.5-3-7 requires that you file a petition for administrative review. This petition may include a request for stay of effectiveness and must be submitted to the Office Environmental Adjudication, ISTA Building, 150 W. Market Street, Suite 618, Indianapolis, IN 46204, **within eighteen (18) calendar days from the mailing of this notice**. The filing of a petition for administrative review is complete on the earliest of the following dates that apply to the filing:

- (1) the date the document is delivered to the Office of Environmental Adjudication (OEA);
- (2) the date of the postmark on the envelope containing the document, if the document is mailed to OEA by U.S. mail; or
- (3) The date on which the document is deposited with a private carrier, as shown by receipt issued by the carrier, if the document is sent to the OEA by private carrier.

The petition must include facts demonstrating that you are either the applicant, a person aggrieved or adversely affected by the decision or otherwise entitled to review by law. Please identify the permit, decision, or other order for which you seek review by permit number, name of the applicant, location, date of this notice and all of the following:

- (1) the name and address of the person making the request;
- (2) the interest of the person making the request;
- (3) identification of any persons represented by the person making the request;
- (4) the reasons, with particularity, for the request;
- (5) the issues, with particularity, proposed for considerations at any hearing; and
- (6) identification of the terms and conditions which, in the judgment of the person making the request, would be appropriate in the case in question to satisfy the requirements of the law governing documents of the type issued by the Commissioner.

If you have technical questions regarding the enclosed documents, please contact the Office of Air Quality, Permits Branch at (317) 233-0178. Callers from within Indiana may call toll-free at 1-800-451-6027, ext. 3-0178.

RE: 163-16131
Second Administrative Amendment to
FESOP 163-10940-00063

Dear Garrett Clemons:

TransMontaigne Product Services, Inc. was issued a FESOP on February 13, 2002 for a bulk petroleum product storage and transfer terminal. A letter requesting a change was received on June 24, 2002. Pursuant to the provisions of 326 IAC 2-8-10(a)(4) and (a)(6), the permit is hereby administratively amended as follows:

- (a) One (1) 8000 gallon cone roof storage tank, designated as Tank #27, will be added as an insignificant activity. The tank will store gasoline additive.

The emissions related to this tank are determined to be of exemption level status.

1) A.3 Insignificant Activities [326 IAC 2-7-1(21)][326 IAC 2-8-3(c)(3)(I)]

This stationary source also includes the following insignificant activities, as defined in 326 IAC 2-7-1(21):

- (a) Paved and unpaved roads and parking lots with public access.
 - (b) One (1) vertical cone roof diesel additive storage tank, identified as Tank #26, with a maximum storage capacity of 1000 gallons.
 - (c) **One (1) cone roof gasoline additive storage tank, designated as Tank #27, with a maximum storage capacity of 8000 gallons.**
- 2) The company has changed their name from Transmontaigne Terminals, Inc. to Transmontaigne Product Services, Inc. This will be reflected on the adjusted pages of the permit.

All other conditions of the permit shall remain unchanged and in effect. Please attach a copy of this amendment and the following revised permit pages in front of the original permit.

This decision is subject to the Indiana Administrative Orders and Procedures Act - IC 4-21.5-3-5. If you have any questions on this matter, please contact Scott Fulton at (800) 451-6027, press 0 and ask for Scott Fulton or extension (3-5691), or dial (317) 233-5691.

Sincerely,

**FEDERALLY ENFORCEABLE STATE
OPERATING PERMIT (FESOP)
OFFICE OF AIR QUALITY**

**TransMontaigne Product Services, Inc.
2630 Broadway Avenue
Evansville, IN 47712**

(herein known as the Permittee) is hereby authorized to operate subject to the conditions contained herein, the source described in Section A (Source Summary) of this permit.

This permit is issued in accordance with 326 IAC 2 and 40 CFR Part 70 Appendix A and contains the conditions and provisions specified in 326 IAC 2-8 as required by 42 U.S.C. 7401, et. seq. (Clean Air Act as amended by the 1990 Clean Air Act Amendments), 40 CFR Part 70.6, IC 13-15 and IC 13-17.

Operation Permit No.: F163-10940-00063	Date Issued: February 13, 2002
First Administrative Amendment No.: 163-15991-00063	Date Issued: June 7, 2002
Second Administrative Amendment No: 163-16131-00063	Page Affected: 5, with 5a added
Issued by: Original Signed by Paul Dubenetzky Paul Dubenetzky, Branch Chief Office of Air Quality	Date Issued: October 15, 2002

- (k) One (1) external floating roof tank, identified as T-14, with a maximum storage capacity of 252,000 gallons of gasoline, and exhausting to stack V-14 (installed in 1936);
- (l) One (1) internal floating roof tank, identified as T-15, with a maximum storage capacity of 357,000 gallons of petroleum distillate (diesel), and exhausting to stack V-15 (installed in 1936);
- (m) One (1) internal floating roof tank, identified as T-16, with a maximum storage capacity of 252,000 gallons of petroleum distillate (diesel), and exhausting to stack V-16 (installed in 1936);
- (n) One (1) internal floating roof tank, identified as T-17, with a maximum storage capacity of 823,200 gallons of gasoline, and exhausting to stack V-17 (installed in 1954);
- (o) One (1) internal floating roof tank, identified as T-18, with a maximum storage capacity of 823,200 gallons of gasoline, and exhausting to stack V-18 (installed in 1954);
- (p) One (1) internal floating roof tank, identified as T-19, with a maximum storage capacity of 613,200 gallons of gasoline, and exhausting to stack V-19 (installed in 1954);
- (q) One (1) fixed cone roof tank, identified as T-20, with a maximum storage capacity of 613,200 gallons of petroleum distillate (diesel), and exhausting to stack V-20 (installed in 1954);
- (r) One (1) internal floating roof tank, identified as T-21, with a maximum storage capacity of 823,200 gallons of gasoline, and exhausting to stack V-21 (installed in 1970);
- (s) Two (2) fixed cone roof tanks, identified as T-22 and T-24, each with a maximum storage capacity of 21,000 gallons of additive, and exhausting to stack V-22 and T-24 (installed before 1973);
- (t) One (1) north tank truck loading rack, identified as L-25, used to load distillates or jet kerosene only, equipped with five (5) arms, with a maximum loading capacity of 252 million gallons per year of petroleum products, which include gasoline and distillates, utilizing a vapor flare (C-1) with a maximum heat input rate of 20 million British thermal units per hour (mmBtu/hr) for VOC control, and exhausting to stack V-25 (installed after December 17, 1980); and
- (u) One (1) south tank truck loading rack, identified as L-26, used to load distillates or jet kerosene only, equipped with five (5) arms, with a maximum loading capacity of 252 million gallons per year of petroleum products, which include gasoline and distillates, utilizing a vapor combustor (C-2) with a maximum heat input rate of 53.3 mmBtu/hr for VOC control, and exhausting to stack V-26 (installed after December 17, 1980).

A.3 Insignificant Activities [326 IAC 2-7-1(21)] [326 IAC 2-8-3(c)(3)(I)]

This stationary source also includes the following insignificant activities, as defined in 326 IAC 2-7-1(21):

- (a) Paved and unpaved roads and parking lots with public access.
- (b) One (1) vertical cone roof diesel additive storage tank, identified as Tank #26, with a maximum storage capacity of 1,000 gallons.
- (c) One (1) cone roof gasoline additive storage tank, identified as Tank #27, with a maximum storage capacity of 8,000 gallons.

A.4 FESOP Applicability [326 IAC 2-8-2]

This stationary source, otherwise required to have a Part 70 permit as described in 326 IAC 2-7-2(a), has applied to the Indiana Department of Environmental Management (IDEM), Office of Air Quality (OAQ) for a Federally Enforceable State Operating Permit (FESOP).

A.5 Prior Permits Superseded [326 IAC 2-1.1-9.5]

- (a) All terms and conditions of previous permits issued pursuant to permitting programs approved into the state implementation plan have been either
- (1) incorporated as originally stated,
 - (2) revised, or
 - (3) deleted
